

FIRST INTERNATIONAL CONGRESS OF AZERBAIJAN NEUROSURGEONS

SUBMISSION OF ARTICLES

Timeline

- Submission Start Date: February 5, 2025
- Submission Deadline: March 25, 2025
- Announcement of Results: April 21, 2025

General Guidelines

- The topic of the submission must be related to the field of neurosurgery.
- Submissions must be in English only (Presentations can be conducted in both Azerbaijani and English).
- There is no limit on the number of research submissions.
- The results section must be completed by the submission date.
- Research describing data that has not yet been collected or analyzed will not be accepted.
- You may indicate your preferred presentation format (oral or poster); however, the Selection Committee will determine the final format.
- Submissions can be edited until the submission deadline.
- After this date, changes to the content or authorship will not be possible.
- Submissions containing advertisements, commercial names, or product messages will not be accepted.

Required Submission Information

- Author (Corresponding Person): The primary author submitting the research. All communication will be conducted through this person.
- Title: Title of the research.
- Keywords: Maximum of 4 keywords.
- Research Abstract (Maximum 300 words):
- Objectives: Clear and measurable learning objectives must be stated.
- Background: A brief explanation of the reason for conducting the research.
- Methodology: A concise description of the research method and approach.
- Results: The findings of the research must be presented and explained in sufficient detail to support conclusions.
- Conclusion: The significance of the study and its impact on future research should be explained.

Selection for Oral Presentation

Submitted research will be reviewed by independent experts, and only those with high scientific value will be selected for presentation. The evaluation will be based on the following criteria:

- Innovation in ideas, methodology, and materials.
- Scientific rigor of the methodology and materials.
- Quality and impact of research findings.

Award

The first three research papers accepted for Oral Presentation will be awarded FREE registration for one author each (applicable to residents or young neurosurgeons under the age of 40).

Important Note

- For the accepted submission to be included in the Congress Book, at least one of the authors must attend the event.
- Research selected for oral presentation must be delivered to the audience in a maximum of 4 minutes.

All dates and times are based on Azerbaijan Standard Time (AZT).
